

# Design Verification Report

## For buildings complying with the BCBC 9.36

---

To: Building Inspector, Development Services, District of North Cowichan

I, \_\_\_\_\_, am the Applicant for the projects mentioned below and have ensured that the design complies with the requirements of Section 9.36 of the 2012 BC Building Code based on the chosen compliance path as indicated below.

### Project Details

---

Project Address \_\_\_\_\_

#### BCBC Compliance Pathway (please check one)

- Prescriptive: 9.36.2 to 9.36.4
- Prescriptive + trade-offs: 9.36.2 to 9.36.4
- Performance – Energy Compliance through 9.36.5

### Drawing Submissions

---

- Envelope section detail indicating the Effective Thermal Resistance (RSI) Value for the Assembly
- Drawings indicating the performance rating and energy source for all heating, ventilation and air conditioning systems as per 9.36.3 of the BCBC 2012
- Provide Ventilation Checklist indicating the ventilation system.
- For Trade Off Method - Window section drawing(s) indicate the Overall Thermal Transmittance (U-Value) for all Fenestration, Doors and Skylights. Note each as either "Meets Minimum Prescriptive Standard" or "Exceeds Minimum Prescriptive Standard" or "Does Not Meet Minimum Prescriptive Standard" found in Tables 9.36.2.7.A./B./C.
- For Performance path Compliance only – a report from the Energy consultant is required at time of Building Permit submission and a second prior to Occupancy.

*The undersigned has produced and/or reviewed the above-mentioned project with the Compliance Pathway indicated in the Project Details, created based on the project's design as provided by the Designer of Record. The undersigned has verified that the project complies with the Compliance Pathway, as detailed in Section 9.36 of the 2012 BC Building Code.*
